

Our vision

A fair, inclusive society where communities thrive and people are engaged, connected, and able to shape their own lives.

Our mission

To make the most of the strengths and assets within communities by distributing funding, increasing capacity and building trusting relationships.

Our Strategy 2019-2024

Our values

Equality

Respecting every human being, embracing diversity and promoting everyone's right to social justice.

Relationships

Working together in a spirit of trust and respect to create opportunities for collective benefit.

Authenticity

Being genuine, reliable and true to ourselves in everything we do.

Openness

Being open to the ideas, influences and views of others to increase shared knowledge and understanding.

Dynamism

Nurturing a culture where everyone can learn, create and innovate to be all they can be.

Key areas of work

Fund management

Fund management on behalf of the public and private sectors and donors.

Collaboration

Collaborate with other funders and fund managers and share learning to achieve positive change.

Support services

Provide support services to public sector agencies, companies and donors to maximise benefits for communities.

Innovation

Develop and test new approaches to cross-sectoral collaboration to bring added benefit to communities.

Support funders

Provide support services to funders and investors about strengths-based approaches to add benefit and value to funders and communities.

Investment

Develop relationships with donors and philanthropists that generate investment and other resources to benefit communities.

Strategic aims

Positive change

Develop and manage innovative funds that generate positive change.

Development

Build the capacity of the third, public and private sectors to strengthen their impact.

Sustainability

Be a sustainable organisation.

Innovation

Learn, improve and innovate as an organisation.

Responsibility

Be a responsible business.
