

# Introducing Impact Funding Partners

Our vision is to create a fairer future for people and communities across the UK and beyond

At Impact Funding Partners, we work with the third sector, private businesses, public sector and individual donors to create a positive social, environmental and economic impact in communities.

We do this by:

- designing and managing impactful funding programmes
- providing strategic advice
- providing social impact and evaluation services

**Our track record in fund management spans more than 40 years and Impact Funding Partners is now focused on the future.**

Addressing the multiple inequalities which exist in our communities is a key priority to build a fairer future for all.

In close collaboration with partners across the third, business and public sectors, Impact Funding Partners has developed a range of services that our agile team deliver with a single-minded focus on genuine social value.

If you are looking for a partner who will offer holistic, bespoke solutions to your challenges, our team would love to hear from you. We don't use templates, we listen and tailor our offering to meet your needs.

**Here at Impact Funding Partners we can help with:**

**Fund Management & Design**

**Social Impact and Evaluation**

**Strategic Advice**

**Environmental, Social and Governance (ESG) Vision**
